DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2 and 5-6 are allowed.
2. The following is an examiner's statement of reasons for allowance: one piece of prior art teaches, individually:

receiving an indicator of the ambient light on a display by accumulating energy into a plurality of sensors of an imager, and determining the indicator and automatically adjusting a brightness for the display based upon the indicator of ambient light on the display.

Another separate piece of prior art teaches, individually: deriving an integration time based upon the accumulated energy and determining an indicator of ambient light based upon the integration time.

3. The prior art does not alone teach:
a method comprising:

receiving an indicator of the ambient light on a display by accumulating energy into a plurality of sensors, deriving an integration time based upon the accumulated energy and determining the indicator based upon the integration time; and

determining the indicator and automatically adjusting a brightness for the display based upon the indicator of ambient light on the display.

4. The Board of Patent Appeals and Interferences has determined, in their decision dated 9/29/2010, that the prior art does not teach in a combination obvious to one of ordinary skill in the art at the time of the invention:

a method comprising:

receiving an indicator of the ambient light on a display by accumulating energy into a plurality of sensors, deriving an integration time based upon the accumulated energy and determining the indicator based upon the integration time; and

determining the indicator and automatically adjusting a brightness for the display based upon the indicator of ambient light on the display.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
